The Mission

The Mission of the Moab Valley Multicultural Center is to build bridges across language & culture through family support, community collaboration, and education.

*MVMC Celebrated its 10th Anniversary in 2017 marking a decade of celebrating diversity in Grand County, Utah.*

The Programs

*MVMC’s priority is to understand the needs of the community and effectively respond with services that exemplify our organizational values of respect, collaboration, compassion, and celebration. The main areas of services offered in 2017 included the following:*

- **Crisis Resource & Advocacy**
  - To provide concrete support in times of need

- **Interpretation & Translation**
  - To increase access to resources & help people understand one another

- **Youth Education & Outreach**
  - To give youth positive multicultural experiences and foster leadership and curiosity

- **Language & Life Skills Support**
  - To access the necessary tools for survival and success

- **Cultural Education & Outreach**
  - To help our community celebrate diversity
The Numbers

MVMC understands that the needs of our community are always changing. Our services are continually evolving to respond in the most effective ways possible.
The Collaboration

MVMC knows that collaboration is one of the most important keys to success. Each of MVMC’s programs are made possible through partnerships, volunteers, and donations.

In 2017...

208 VOLUNTEERS donated 3,293 hours of service

MVMC Partnered with 103 outside organizations for a total of 586 partner activities

MVMC provided 2,386 meals, much of which was food donated in-kind from our community.

The Impact

In 2017, the impact of MVMC’s services could be measured in its ability to expand the reach of its presence in Moab. The Center saw increases in youth program attendance, interpretation services provided, and most notably, an increase in people searching for life skills support services with housing, employment, and education. We strongly believe that our services are helping vulnerable populations in Grand County gain greater access to resources, have a better understanding of those resources, and most importantly, a greater confidence in themselves.
